

Yori Linear Track continuous line, FF670

Reggiani

No. 0.FF670.NN12

Yori Linear is designed in line with the proportions of the Yori Track projector, making it a perfect fit on the track. The design and functionality of the two products enable extremely high performance lighting configurations with a discreet, linear visual impact. Yori Linear is available in single modules or in a continuous line configuration. The elegant, practical continuous line is provided by combining luminaires of different lengths fitted with special plug-and-socket connectors. It is possible to join up to 25 modules or reach a total length of no more than 34 m.

Embossed matt white
