

A-Tube Nano Large

Lodes

No. 15828 6735

A-Tube Nano large is a suspension lamps which interprets light in its simplest form by creating a thin luminous line in the living spaces. At the lower end of the lightweight aluminium structure, a transparent methacrylate diffuser houses an LED module whose light creates a soft, welcoming atmosphere. The three sizes and seven statement finishes allow to create clusters of evocative lighting.

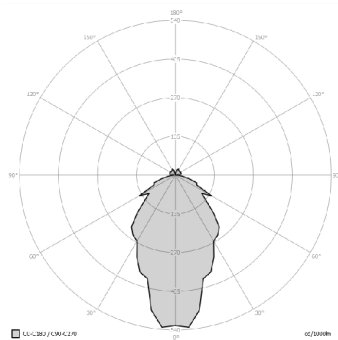

Terra finish with black cable. 3W LED source with a colour rendering index (CRI) of 90, fitted in a methacrylate diffuser, emanates a soft, warm light which highlights the natural colours of objects.
