

## BLACK FOSTER PLUS MINI 4000K WT

Black Foster Plus mini is a spotlight for the Black Foster Custom system that offers the possibility of expanding or concentrating the beam light with just a smooth manual gesture. This characteristic makes Plus the ideal alternative for applications where the precision within the beam of light is essential- like for example: museums, expositions, retail or accent lighting applications. \*\*\*  
NOTE: Recommended for installations where the profile can be installed before the false plasterboard ceiling (thickness 12,5 mm).
