

## RHINO W/O DRIVER 3000K NT

Rhino is a floor wash light that stands out slightly from the wall, cleanly and directly projecting the light obliquely. By doing so, it breaks away from the two design dogmas of this type of luminaire: it relinquishes absolute recessed installation and avoids directing the beam to the exterior, availing itself of rebound surfaces. With this, it has the advantage of being a luminaire with outstanding light efficiency – among its alternatives – defining it from the aesthetic viewpoint.
