

Cells Surface, BG030

Reggiani

No. T.BG030.NNV0

Cells Surface is a range of surface-mounted luminaires for IP66 and IK10 ceiling or wall installation. The luminaire modules can be joined together using the special connector to create more complex lighting configurations. Cells comes in a wide range of finishes and is perfect for lighting urban areas, outdoor pathways, public and private facilities, parking lots and multi-storey car parks. The connector comes in the same standard finishes as the luminaire body and can be used to join a number of Cells luminaires together, thereby creating modular, flexible and aesthetically unique lighting systems. The anti-glare accessories and adjustable brackets make the luminaire even more flexible and fitting for a myriad of applications.

Aluminium base plate white

Technical

Mounting	
Flux	910lm
IP Rating	IP66

Photometric

Colour Temp	4000K
Dimming	PHASE CUT
Beam Angle	68°
CRI	>80

Physical

Material	Aluminum
----------	----------

Electrical

Power	14.5W
Voltage	14.5W
Driver	PHASE CUT
	220/240 Vac 50/60 Hz
Insulation class	IK10
